

Test Plan – SauceDemo Web Application

1. Objective

To verify the core functionalities of the SauceDemo web application, ensuring that key user flows such as login, product selection, cart management, and checkout work as expected.

2. Scope

In Scope

- User login/logout
- Product listing page
- Add/remove items from cart
- Checkout process

Out of Scope

- Performance testing
- Security testing
- Backend/API testing

3. Testing Approach

- Functional Testing of all main features
- UI Testing for layout and usability issues
- Regression Testing after bug fixes
- Exploratory Testing for unexpected issues

4. Test Environment

- Browser: Google Chrome
- OS: Windows 10/11
- Application: SauceDemo (<https://www.saucedemo.com>)

5. Risks

- Demo environment may change without notice
- Limited control over test data

6. Deliverables

- Test cases
- Bug reports
- Automation scripts (Playwright)
